## Report Info

Thank you for choosing to have an DigiME Body Composition Analysis. We hope the experience wasn't too harrowing.

This report features all your results from the 3D scan, giving details of your body measurements, body composition, health scores, metabolic health and etc.

If this is your first report, the report will give you a lot of meaningful data about your body and helps you set your goals.

However, as you accumulate reports following subsequent re-scans, the reports will begin to paint a far clearer picture of the improvements to your body composition and physiology.

Some of the readings are very straight forward and easy to understand, whereas others might be go over your head a little. Where this is the case, we have provided you with more information and a full explanation of what your results mean and steps that you can take to improve them for your next scan at [www.digime3d.com](http://www.digime3d.com)
